Northern Arctic Federal University named after M.V.Lomonosov, Arkhangelsk — M.Sc

SEPTEMBER 2015 - JULY 2017

Specialty: Information systems and technologies

PROJECTS

Rabotavgorode Portal

As a part of the dev team I took part in testing frontend for web portal Rabotavgorode. Due to prompt code review and catching bugs in html and code, time to complete the webpage decreased almost twice.

RunwaySale Warehouse Management Portal

As a part of the dev team I took part in creating web pages for a warehouse management system for RunwaySale company. More than 25 web page of different difficulty were made and more than 100 interactive elements

SKILLS

HTML5 / CSS3, LESS / SASS

Bootstrap 3/4, Javascript

NPM, Yarn, Git

Pug, Gulp, Webpack

ACHIEVEMENTS

February – March 2018 – completion of HTML development courses and obtaining the certificate in WebCademy.ru

April – August 2018 – completion of web development courses and obtaining the certificate in WebCademy.ru

October – November 2018 – completion of Javascript courses and obtaining the certificate in Glo Academy

LANGUAGES

English – advanced level

Russian – native speaker

were programmed. During the work the following stack was used: Gulp, Sass, Laravel, Blade, jQuery, Knockout.js

Atlas of Arkhangelsk region

Took part in development of multimedia Atlas of Arkhangelsk region. I made and implemented more than 50 web themed maps. The website of Atlas, which is made using React, was polished.
